- Biodiversity Strategy
- Soil Framework
- Planning Policy
- Forestry Strategy 2019 – 2029
- Programme for Government
- National Performance Framework
- Landuse Strategy 2021 – 2026
- Our Place in Time: the Historic Environment Strategy for Scotland
- River Basin Management Planning for Scotland
- Energy Strategy Position Statement
- Circular Economy Strategy

Regional

- Clyde and Loch Lomond Flood Risk Management Strategy
- Regional Economic Strategy
- Regional Marine Plan
- Regional Transport Strategy
- Regional Spatial Strategy
- Glasgow and Clyde Valley Green Network Blueprint
- Regional Tourism Strategy
- Sustainable Procurement Plan
- MGSDP Surface Water Management Masterplan

Local

- Local Climate change strategies and plans
- Local Flood Risk Management Plans
- Local Outcome Improvement Plans
- Local Development Plans (including Supplementary guidance and/or Strategic Development frameworks)
- Local Biodiversity Action Plans
- Local Housing Strategies
- Local Economic Development Strategies
- Local Transport Strategies
- Open Space Strategies
- Local Neighbourhood Plans
- Local Heat & Energy Efficiency Strategies
- Local Air Quality Management Plans

International

- UNFCCC Paris Agreement 2015
- UN Sustainable Development Goals, the 2030 Agenda for Sustainable Development

The Adaptation Strategy and Action Plan has been funded in part by the **Resilient Regions: Clyde Rebuilt** project

The Resilient Regions: Clyde Rebuilt project was delivered by a consortium including Sniffer, Paul Watkiss Associates and Creative Carbon Scotland, and EIT Climate-KIC, and is funded by EIT Climate-KIC and the fifteen local Climate Ready Clyde partners. The project has received funding from Climate-KIC, supported by EIT, a body of the European Union.

The views expressed in this publication are the sole responsibility of the author(s) and do not necessarily reflect the views of Climate-KIC or the European Union. The European Community is not liable for any use made of this information.
